WEEE / RoHS / Perfluorochemicals Statements

The Commission of European Union has legislated to put the following new directives in force effective 1st July 2006.

- Waste of Electrical and Electronic Equipment (2002/96/EWG)
- Restriction of Hazardous Substances (2002/95/EWG)
- RoHS Directive 2002/96/EC and the European Directive 2003/11/EC

Waste of Electrical and Electronic Equipment (WEEE) directive 2002/96/EWG, regulates the end of life disposal and recycling of electrical waste. Halogen containing base materials are affected by this regulation as they need to be declared as special waste while halogen free waste can be disposed as standard waste.

The Restriction of Hazardous Substances (RoHS) [Directive 2002/96/EC and the European Directive 2003/11/EC, confirming that the materials listed below are present below the specified maximum limits:
